

FIRE SAFETY SERVICES

Our team of fire safety experts bring a unique blend of technical knowledge, hands on experience and practical solutions. They not only identify problems but provide actionable solutions that are practical, effective and sustainable.

Services include:

- Fire Extinguisher Training
- Emergency Warden Training
- Chief Emergency Warden Training
- Emergency/Evacuation Diagrams
- Evacuation Exercises

Evacuation Diagrams

Our evacuation diagrams are structured to ensure compliance with Australian Standard AS3745 as well as state regulations.

The building owner/manager has an obligation to provide emergency plan/diagrams to all staff, visitors and contractors. The emergency evacuation diagrams show evacuation routes, of fire fighting equipment, site plan and other significant information.

Evacuation Exercises

Announced or unannounced evacuation exercise including observation and recorded reactions of the occupants of your premises. The visit includes a short meeting prior to the trial evacuation. The actual Evacuation process followed by a debrief meeting. A report is then written and provided for your records.

Additional Courses on Offer

- Fire Extinguisher
- Emergency Warden Training
- Chief Emergency Warden
